

AUTO PARK RF. REVERSING AID COMPONENTS

R.F. (Radio Frequency)
Transmitter With Mounting Bracket.

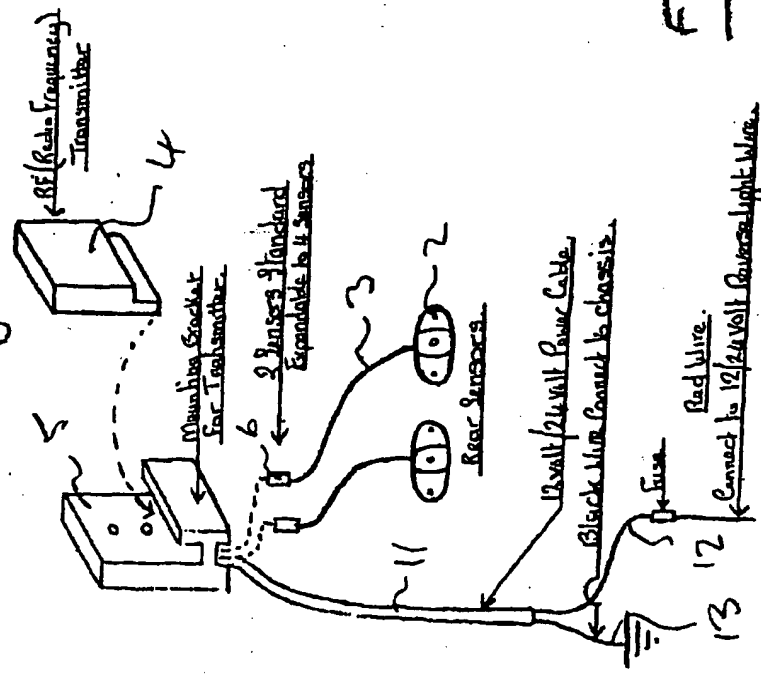

FIG 1

Application Of Auto Park R.F. Reversing Aid.

Without a trailer connected, C detects objects at the rear of the vehicle, B then transmits a signal to A the receiver.
 With a trailer connected, Move B to the trailer from the vehicle and now C detects objects and B transmits a signal from the trailer to A the receiver in the vehicle.
